Johannes Treutler   2020-06-12 01:44:10.000 PM

We will buy 491,499 CEL starting today and I expect that we will need below 16 BTC ..

Johannes Treutler   2020-06-12 01:44:28.003 PM

Let's start roundabout 2pm EST

Connor Nolan   2020-06-12 02:01:12.003 PM

Ok sounds good, I will be offline after 5pm today but can get back online at 8ish (travelling) and can hop on this weekend when needed as well

Connor Nolan   2020-06-12 02:01:27.003 PM

just to add to your timetable

Johannes Treutler   2020-06-12 02:24:38.003 PM

Thanks for the Info

Johannes Treutler   2020-06-12 02:26:42.007 PM

FYI: imo we need to be a bit more aggressive the next two weeks to support the closed raise and the talk about this on the AMAs each Friday .. this is the most bullish news for our community since May 2019 and they only figure this out if the price of CEL jumps a bit .. this is what I explained early this week already to Alex, Daniel, Nuke, Harumi ..

Johannes Treutler   2020-06-12 02:27:36.007 PM

So I think we will roll out our plan we made a week ago in two weeks from now ..

Johannes Treutler   2020-06-12 02:28:05.007 PM

Until then we need to take down as much of the big seller as we can

Connor Nolan   2020-06-12 02:28:07.007 PM

I agree

Johannes Treutler   2020-06-12 02:28:09.007 PM

Do you agree?

Johannes Treutler   2020-06-12 02:28:11.007 PM

Ok

Johannes Treutler   2020-06-12 02:28:14.010 PM

Great

Connor Nolan   2020-06-12 02:28:17.010 PM

Beat you to it

Connor Nolan   2020-06-12 02:28:22.010 PM

all makes sense to me

Johannes Treutler   2020-06-12 02:28:38.010 PM

Ok let's start during AMA

Connor Nolan   2020-06-12 05:34:39.010 PM

whats the plan

Johannes Treutler   2020-06-12 05:39:56.010 PM

Let me check one last time all order books

Johannes Treutler   2020-06-12 05:49:13.010 PM

I would do: 1.) 200,000 @ 0.00003 Immediately after this: 2.) 300,000 @ 0.000028

Johannes Treutler	2020-06-12 05:49:20.010 PM

What's your opinion?

Connor Nolan	2020-06-12 05:50:52.013 PM

good*

Connor Nolan	2020-06-12 05:53:12.013 PM

it is done

Johannes Treutler	2020-06-12 05:53:20.013 PM

Johannes Treutler	2020-06-12 06:14:39.013 PM

I would move the order up to 0.00003 and let it there for a few hours

Johannes Treutler	2020-06-12 06:14:50.013 PM

Your opinion?

Connor Nolan	2020-06-12 06:15:47.013 PM

I am confused, it already completely filled

Connor Nolan	2020-06-12 06:16:08.013 PM

you told me to do the .00003 first - yes?

Connor Nolan	2020-06-12 06:16:45.013 PM

did we mess something up?

Johannes Treutler	2020-06-12 06:17:21.013 PM

No all good

Johannes Treutler	2020-06-12 06:17:36.017 PM

I just suggested to move the order from 0.000028 up to 0.00003

Johannes Treutler	2020-06-12 06:18:44.017 PM

We have 250,000 at 0.000028 currently ... I thought about changing the price to 0.00003 and wait a few hours for the reaction

Johannes Treutler	2020-06-12 06:18:56.017 PM

Do you think this is too aggressive?

Johannes Treutler	2020-06-12 06:19:24.017 PM

If you like it let's do it, if you don't like it let's wait a few hours with the current set up ..

Connor Nolan	2020-06-12 06:23:05.017 PM

I am confused. We already bought 500k Cel due to your instructions above

Johannes Treutler	2020-06-12 06:23:44.017 PM

You bought 200,000 in the first order .. the order got filled immediately ..

Johannes Treutler	2020-06-12 06:24:06.020 PM

And seconds later you entered 300,000 0.000028 but the order gut only filled for 90,000

Johannes Treutler	2020-06-12 06:24:19.020 PM

The rest 210,000 is still in the market waiting for sellers

Connor Nolan	2020-06-12 06:24:49.020 PM

right my apologies, i thought that filled instantly as well but was on the bottom of our current quantities (It used to show at top)

Connor Nolan	2020-06-12 06:25:55.020 PM

for some reason liquid isnt showing me how much has been filled

Johannes Treutler	2020-06-12 06:26:20.020 PM

Oh that's weird .. yeah, no problem ..

Connor Nolan	2020-06-12 06:26:48.020 PM
Connor Nolan	2020-06-12 06:26:54.023 PM

no price or filled shown

Johannes Treutler	2020-06-12 06:27:53.023 PM

Hmm .. I used Liquid a lot for buying a few months earlier and I know you can set up the columns .. but don't know exactly how ..

Johannes Treutler	2020-06-12 06:28:07.023 PM

I was always able to see all important info .. hmmmmm

Connor Nolan	2020-06-12 06:28:13.023 PM

it used to be different - i will look

Connor Nolan	2020-06-12 06:29:44.023 PM

so do you think I should repost this 208k at .00003

Connor Nolan	2020-06-12 06:29:45.023 PM

?

Johannes Treutler	2020-06-12 06:30:28.027 PM

I think this could be a good idea .. what do you say?

Connor Nolan	2020-06-12 06:30:35.027 PM

sounds good to me

Johannes Treutler	2020-06-12 06:30:41.027 PM

Ok fine

Connor Nolan	2020-06-12 06:31:44.027 PM

its out there

Connor Nolan	2020-06-12 06:32:11.027 PM

150 filled

Johannes Treutler	2020-06-12 06:35:32.027 PM

That worked out pretty well!!

Johannes Treutler	2020-06-12 06:36:20.027 PM

If you look at other exchanges & trading pairs you'll see that we removed their sellers as well with this order as it was exactly a level where both made the arbitrage (very small arbitrage) ..

Johannes Treutler	2020-06-12 06:36:41.030 PM

This means we were able to clean out all big sellers until this price at all exchanges ..

Johannes Treutler	2020-06-12 06:37:16.030 PM

Now the market will be able to find its own way :man-shrugging::skin-tone-4:

Johannes Treutler	2020-06-12 06:37:22.030 PM

Thanks Connor

Connor Nolan	2020-06-12 06:38:02.030 PM

awesome, sounds good

Connor Nolan	2020-06-12 06:38:11.030 PM

thanks for the lesson, always helpful to see the reasoning
